

WARNING!

Do not drop, misuse or put excessive force on your power bank. Power banks contain batteries and a circuit board with fragile components that can be damaged if misused. If you drop or damage your power bank, discontinue use immediately.

If crushed, punctured, exposed to fire or high temperatures or disassembled, batteries may catch fire, explode or cause burns.

If your power bank swells stop using it immediately and dispose of the power bank in an appropriate manner. Continued use may cause the power bank to catch fire or explode.

Store power bank in a cool and dry place. Do not store power bank in a hot or humid environment e.g. In a car or directly in the sun.
