We’re here for life.
## Hipac – making it work for you

A quarter of a century ago the concept of “making it work for you” germinated and developed resulting in the matured Hipac of today that stands tall amongst leading healthcare product suppliers.

From the intensity, pressure and technological environment of the operating theatre to the relaxed and caring atmosphere of the mental health facility, we have the solutions and the experience to make it work for you.

We understand the demands placed upon healthcare department managers, medical professionals and their assistants.

We understand that equipment needs to work on demand, on time, and every time.

We understand that here in Australia specialise healthcare equipment is mostly best sourced internationally where state of the art technology and generous manufacturing quantities can produce reliable and safe products.

We also understand that international product offering doesn’t always suit local practice.

That’s why we operate our own manufacturing facility, backed by a premium after sales national service network, to provide the connection that allows us to delivery a solution that does just that – works for you.

It is likely that you have already experienced the Hipac advantage. If not we look forward to exploring how we can best make it work for you.
Mission

We’re here for life. We’re here to preserve life, to protect life and to promote life. We’re here for others and we’re here for good.

Vision

A vibrant enthusiastic team of dynamic individuals possessing a genuine interest in the needs of those surrounding them, whose attitude and actions benefit not only our clients and their patients but reach out to touch humanity.

Our staff find work rewarding and enjoyable and our customers find engagement with them fulfilling. Stakeholders are satisfied and supportive.

A carefully selected portfolio of solid reliable products is sourced from a long lineup of manufacturers worldwide seeking well supported representation throughout the country.

Growth is sustained by the energy of a service division unequalled for its reliability, dependability and efficiency. It will be capable of a four hour response time anywhere on this vast continent.

Relationships formed will endure.

Guiding Principles

Integrity
Open, honest and loyal in every sphere and relationship.

Selflessness
Put the needs of others ahead of my own.

Consideration
Possess a caring and considerate disposition.

Courtesy
A smile, a kind word, a greeting costs nothing but is priceless.

Generosity
Display a spirit of generosity, kindness and compassion.

Orderliness
Maintain tidy and safe facilities, work areas and practices.

Effectiveness
Do it once, do it right and do it in the least amount of time. Be punctual.

Communication
Keep customers, suppliers and fellow workers informed.

Recordkeeping
Maintain accurate records for a better tomorrow. Be accountable.

Innovation
Do it smarter, better, quicker. Think outside the box.

Action
See a need do something about it... now.
The New Standard in Full Body Imaging, Lift & Articulation Power

The 6701B surgical table represents the new standard in 21st century surgical table design and performance, with unmatched imaging flexibility and even greater lift and articulation power. Features include 545kg lift and 455kg articulation capacity, removable head, leg and back sections (with optional carbon fibre imaging extension), 210° top rotation, 584mm low table height, auto beach chair position, 30° tilt, trendelenburg, reverse and more!

From ease of set-up to the reduced need for multiple support accessories, the 6701B is the most powerful, versatile and image-friendly surgical table available.

*C-Arm courtesy of Philips Medical Systems, Inc.*
Optimal C-Arm Compatibility with Enhanced Low Height Range

210° Top Rotation

Exclusive 210° top rotation provides uncommon C-Arm flexibility and eliminates any conflict between surgeon and anaesthetist during head-end procedures, while also providing generous leg room for standing or seated surgeons.

A low height range of 584mm off the floor is standard.
Benefits of removable back and leg sections include optimal anaesthesia access for shorter patients in lithotomy position and enhanced leg room for seated surgeons. In addition, lower table heights can be more easily achieved by removing rather than lowering the leg section, thereby eliminating any articulation conflicts with the floor.

Removable back & leg sections also permit use of the optional 1020mm carbon fibre imaging extension for obstruction free imaging for upper and lower body procedures.
Versatile Positioning Ranges, Automatic Beach Chair and Return-to-Level Functions.

210° Top Rotation
Automatic Beach Chair Position

90° Reflex
40° Flex
100° Leg Down
Leg Up 20°
90° Back Up

30° Lateral Tilt Right and Left

Beach Chair

Optimally versatile table functions for today’s most demanding procedures.
6701B Overview

Speedy Set-Ups and Auto Beach Chair Function for Specialty Procedures

Removal of the back section provides speedy attachment of the power shoulder arthroscopy positioner. Auto beach chair function takes the manual work out of positioning patients for shoulder arthroscopy and other upper body procedures.

Removable leg section permits surgeons more leg room, lower table height positioning for urology, cysto/gyn and other lower body procedures. Optional 1020mm carbon fibre imaging extension provides obstruction free imaging for specialty procedures such as endovascular (attached to leg section) or lap-chole (attached to back section) and more!
6701B Overview

Low Table Height Adjustment to 584mm When and Where It Is Needed Most

From general purpose to bariatric surgery, the 6701 does it all!

- 545kg lift and 455kg articulation capacity
- 30° patient articulation including tilt, trendelenburg and reverse trendelenburg
- 584mm low height adjustment
- Full body imaging coverage
- Automatic 4-point, self-levelling brake safety system
- Full line bariatric table accessories

Tested to 4 x the Weight Safety Factor of 2182kg
Big Patient Needs, BIGGER Table Solutions

When a wider table top is required, the 6701B provides simple and speedy set-up with side extension accessories that can quickly widen the table top to 762mm.

6701B Bariatric Positioning

6701 is ready when you are, with unmatched lifting power, ease of patient set-up and positioning versatility for every procedure.
Durable Back-Lit, One Touch Pendant Control with Full Table Functions

It’s simply the easiest and most durable hand control to use from any location around the surgical table, with convenient back-lighting for high visibility when working in low light environments.

- Simple one touch operation
- Back-lit control for high visibility
- Audible alarm for kidney bridge, back up, articulation, top slide obstruction
- Anatomically correct return to level
- Top slide return to centre indicator
- Recessed buttons to eliminate accidental activation
- Exceptionally durable rubber encased steel housing
- Water resistant
- Can be used in conjunction with optional three function foot control
Feature for Feature, the Most Powerful & Versatile General Purpose/Bariatric Surgical Table in the Industry

545kg lift and 455kg articulating capacity

- Head section can be used as a foot extension during transfer.
- Optional snap-on raised radiographic top permits fast, easy side loading of full-size X-Ray cassettes.
- Radiolucent top permits clear, sharp image amplification.
- Adjustable head section can be extended to accommodate taller patients.
- Full width quick-release bar on manually operated head section is easy to locate in emergency situations.
- Durable one-touch, back-lit pendant controls all functions from any point around the perimeter of the table.
- Back-up controls for emergency situations.
- Optional three-function foot control.
- Battery life indicator on table base.
- Exclusive removable back section allows for optional 1020mm carbon fibre imaging extension attachment.
- Built-in power kidney bridge provides an additional 152mm of lift.
- Return-to-Level & automatic beach chair functions.
- Narrow base design provides toe space clearance to eliminate surgeon back strain.
6701B Operating Table

Exclusive 210° rotating top facilitates C-arm access, patient positioning and surgeon comfort.

Large perineal cut-out for better access.

Removable leg section allows for optional 1020mm Carbon Fibre Imaging Extension attachment.

Standard sized side rails accept most accessories.

Unique frame construction eliminates cross-members and allows unobstructed C-arm access.

Fluid resistant stainless steel base and column are durable and easy to clean.

584mm low table height

4-point brake system maximises table stability.

Optional 1020mm carbon fibre imaging extension provides for obstruction free upper and lower body imaging.

Self-levelling brakes automatically compensate for uneven floors and assure a solid work surface.

Fully mechanical brake release.

Swivel casters permit side movement for ease of cleaning between cases.

545kg lift and 455kg articulating capacity
## 6701B Positioning Overview

### Upper Body Imaging
- 1020mm Carbon Fibre Imaging Extension
- Locking Armboard
- Foot Rest
- Multi Clamp

### Lower Body Imaging
- 1020mm Carbon Fibre Imaging Extension
- Multi Position Armboard
- Multi Clamp

### Lap Nissen
- Split Leg Section
- Foot Rest
- Split Leg Foot Rest
- Multi Position Armboard

### Urology
- Lift Assisted Leg Holders
- Urology Bracket Set and Pouches
- Stirrup Clamp
- Locking Armboard
## Ophthalmic/ENT
- Standard Armboard
- Foot Rest
- Multi Clamp
- All Rubber Table Restraint

## Nephrectomy
- Standard Armboard
- Foot Rest
- Multi Clamp
- All Rubber Table Restraint
- Chest and Waist Support
- Multi Position Armboard
- Tri Clamp

## Neuro (neck)
- Foot Rest
- Multi Clamp
- Multi Position Armboard
- Tri Clamp
- All Rubber Table Restraint

## Neuro (lumbar)
- All Rubber Table Restraint
- Multi Position Armboard
- Tri Clamp
6701B Positioning Overview

Shoulder Arthroscopy
- Foot Rest
- Multi Clamp
- Lift Assisted Shoulder Chair

Neuro (head)
- Foot Rest
- Multi Clamp
- All Rubber Table Restraint
- Mayfield Adaptor

Hip Revision
- Multi Position Armboard
- Multi Clamp

Cardiovascular
- Foot Rest
- Multi Clamp
- All Rubber Table Restraint
- Standard Armboard
- Anaesthetic Screen
6701B Positioning Overview

**Abdominal**
- All Rubber Table Restraint
- Locking Armboard
- Direct On Table Width Extensions

**Gall Bladder**
- Foot Rest
- Multi Clamp
- All Rubber Table Restraint

**Cysto/GYN**
- Heavy Duty Lift Assisted Leg Holders
- Locking Armboard
- Urology Bracket Set including Pouches

**Cardiovascular**
- 1020mm Carbon Fibre Imaging Extension
- Locking Armboard
# 6701B Table Specifications

**TECHNICAL SPECIFICATIONS:**

- Full function, electrohydraulic battery powered surgical table features 210° top rotation, 545kg lift and 455kg articulation capacity.
- Table is equipped with a removable 457cm power cord for battery charging.
- Four (4) conductive casters, four point braking system with push button operation including manual override for safety and stability.
- Hand held, back-lit pendant control includes steel housing design providing extreme durability.
- Hand control permits operation of the table at any point around table’s perimeter.
