

Award-winning door with no known ligature points

- Leaves detach if ligature is attempted, at 8kg load
- Strong magnets and pivot mechanism avoid leaves detaching during day-to-day use
- Magnets cannot be removed or ingested.
- Soft, lightweight leaves minimal weaponisation
- Retrofits under 60 minutes.
- Less up-front and running costs compare with alternatives

Limitations of Existing Options

In-depth research has revealed the limitations of existing solutions:

- Any two hard surfaces meeting creates a ligature point.
- Load release is the only safe option

Cut-Down Door

- Multiple ligature risks on door frame, hinge and gap
- Can be used as both a weapon and hiding place

Full Door with Door-Top Alarm

- Low-level anchor points pose risk of bed sheet ligature
- Limits observation when bathroom in use

Side-Hung Magnetic Door

- Side-hung magnets detach too easily, so impractical
- Strong magnets in fabric can be removed and swallowed, causing internal injury and even death

No Door/Curtain

- Lack of dignity and privacy
- Curtain blocks observation and requires regular replacement
- Doesn't emulate home environment

Hipac Primera Safehinge En-Suite Door Set Lifesaving Details

Manufactures Warranty

The Manufacturer's warranty guarantees the en-suite foam door leaves and magnetic frame pivots against material and manufacturing defects for a period of one year from the date of sale.

The guarantee will provide for the free replacement of any element proved to be of faulty manufacture or material defect following inspection.

The onus is on the buyer to ensure that the products have been correctly specified as being fit for purpose and that the products are installed, commissioned and maintained strictly in accordance with

Manufacturer's fitting instructions.

[Fitting Instructions available upon request.]
