# Welcome to the MedLED Chrome®

*The next frontier in the elimination of cords in the O.R.*

Finally, the gap is bridged between Xenon power and LED efficiency. The **Chrome** is the first & brightest LED headlight that provides portable power all day long.

The **Chrome** utilizes the flagship *truly cordless* **MedLED**® headstrap design for complete freedom. By choosing among a family of removable light modules, the **Chrome** can be tailored to perform any surgery, even those extremely demanding deep cavity cases where brightness is imperative.

## The 4 MedLED® Pillars

**1.** Be free of the cords with the patented battery-swap technology giving extensive battery life.

**2.** A patented headband system to hold everything together in perfect balance. So much, that you forget it's there.

med  
**LED**<sup>®</sup> **CHROME**<sup>®</sup>  
TRULY CORDLESS™

**3.** At 275,000 LUX, the **Chrome**<sup>®</sup> MC7 PRO is the brightest surgical LED headlight in the world.

**4.** Tailor your light. Choose between a soft-top or hard-top headband and load on an MC3, MC6, or MC7 PRO.

# MedLED®

A Product Line by Riverpoint Medical  
Manufactured in Portland, Oregon USA

TRULY CORDLESS™  
**Premium Surgical Headlights**

**MedLED® Story** *The headlamp that started a revolution.*

**MedLED®** was born as the first in surgical LED headlights and remains as the only *truly cordless™* option for any surgical application.

It all started in 2004 when we ‘saw the light’ and launched the **MedLED® Classic** - a bright, soft strap LED headlight followed by the **MedLED Focus®**, **Onyx®** and **Sapphire®**. **And now, the MedLED Chrome®.**

## Headlights
