

Quad gutter

A choice of stylish rainwater solutions

The LYSAGHT® range of Quad (or 'D') gutters offers you great choices when it comes to draining your rainwater. This traditional design looks just as good on new homes or providing a 'perfect match' to existing gutters. It's certainly our most popular replacement gutter.

Choices vary from state to state, with a range of widths that's appropriate for the water carrying capacity in your area.

All Quad gutters are made from long lengths of high-tensile ZINCALUME® steel, which means they are strong and made to last. ZINCALUME® steel gutters last up to four times longer than galvanised gutters; and they are light, so the job of fixing is easy.

Quad gutters are available in a wide range of COLORBOND® steel colours to match or contrast with your roof.

They are compatible with steel and tile roofs.

Some profile dimensions may vary slightly from state to state.

Quad gutters are one of the most popular profiles, so there is a complete range of accessories to choose from.

Insist on BlueScope Lysaght.

When you specify LYSAGHT products you have the added advantage of dealing with a company whose expertise and experience with steel stretches back for well over a century. A company with a reputation for consistently producing top quality products.

LYSAGHT Quad 115 gutters

(Hi-front & Lo-front)

Cross Section	State	Effective Areas mm ² (nominal)
Quad 115 Hi-Front	NSW, Qld, SA, Vic, Tas	$A_e = 5809$
Quad 115 Lo-Front	NSW only	$A_e = 6165$
Quad 125 (D gutter)	SA, WA	$A_e = 7889$
Quad 125 (square bead)	WA only	$A_e = 5330$
Quad 150 (D gutter)	Qld, SA	$A_e = 8912$
Quad 175 (D gutter)	Qld, SA	$A_e = 14672$

Quad 115 is a traditional gutter, and is compatible with NOVALINE® fascia. Quad 115 Hi-front gutter better obscures the end of low-to-medium height roofing profiles from view.

A wide range of COLORBOND® steel colours are available to match or contrast your home's colours. No messy painting is required.

In some states, this profile is available slotted to prevent water overflowing into eaves during heavy rainfall.

In Victoria, Quad 115 Hi-front is also known simply as Quad gutter.

In South Australia, Quad is known as D gutter.

The Queensland Quad 115 Hi-front gutter is fluted and slotted.

In NSW only, Quad is available in both Hi-front and Lo-front.

Quad 115 (NSW, Qld, SA, Vic, Tas)

Hi-front Dimensions

A = 65 mm (nominal)

B = 90 mm (nominal)

C = 115 mm (nominal)
