

LSI 100 Hot and Cold Laminator

The LSI 100 is a proven solution, allowing easy lamination for posters, banners, documents and more. Complete with heavy duty machine trolley on castors, this roll fed poster laminator delivers a professional finish with minimal effort.

The multi function digital controller with memory makes it simple when selecting heat function for thermal encapsulation.

Cold laminating is also made simple with a take up roller for backing paper and easy set roller pressure for mounting up to 5 mm.

Specifications

| | |
|-----------------------|--|
| Max. laminating width | 1050 mm |
| Max. film thickness | 250 micron |
| Max. temp | 140 °C |
| Speed | Up to 1.6 m per min |
| Mounting | Up to 5 mm thickness |
| Power requirements | 220/240v 50-60Hz 12 Amps |
| Weight | 155 KG Approx |
| Machine dimensions | 1350 mm (L) x 600 mm (D) x 1170 mm (H) |
| Core size | 58 mm / 76 mm |
| Warranty | 12 month parts |
