

Q Lam SAB 35

Introducing the Q Lam SAB-35, a semi-automatic digital laminator with a difference.

This European manufactured laminator has been designed with space and simplicity a priority.

The compact and unique design enables the operator to manually feed, laminate, de-curl and separate sheets at a rate of up to 12 metres per minute.

Featuring a large diameter chromed heating roller and in-built state of the art touch screen, this machine offers maximum adhesion opportunity and is the perfect compliment to any digital print house.

The SAB-35 is designed to produce a five star finish with ease of use and minimal set up.

European leaders for over 30 years, Q Lam have specialised in commercial laminating equipment to the highest standard. Never before has Australia seen such quality and craftsmanship in digital print finishing equipment.

From appearance to performance the quality is first class with no expense spared and no details forgotten.

Made in Europe to European standards

Highest quality components

Simplicity and efficiency at its best

Lamination
system

www.lamination.com.au

Minimal adjustments required by touch screen

Small footprint and compact design

Heavy duty castors for ease of mobility

Advanced roller surface heating for a smooth and consistent finish

Large diameter chrome roller for maximum adhesion

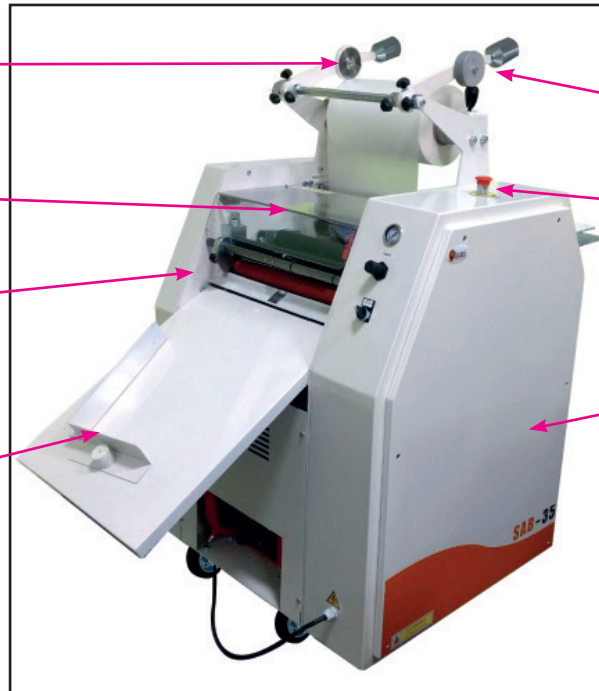

Semi auto gate feed system for ease of use

In line film slitter

In built adjustable sheet de-curl system

Built in sheet separator

Adjustable catch tray

Film perforator for easy sheet separation

Safety features and emergency stops

Built in air compressor for pneumatic roller pressure

Specifications

Q LAM SAB 35

Max. sheet size	380 mm x 510 mm
Min. sheet size	200 mm x 150 mm
Max. capacity per hour	1590 SRA3 sheets
Max. mechanical speed	12 m/min
Paper thickness	130 - 380 gsm
Power	240v / 15 amp
Machine dimensions	W 800 mm x L 1600 mm x H 1160 mm
