Andrew Houghton, Manukau

Jarrad Critchley, Manukau

Scott Lippers, Dunedin

Jess Buxton, Hamilton

BRANCH HAPPENINGS

We're excited to announce a brand new Autolign branch opening soon at **5 Druces Road, Manukau**.

Andrew Houghton is Branch Manager of the new store, Andrew brings an excellent level of experience coming from AutoStop in Takanini and prior to Autostop he spent almost 5 years with Autolign. With Andrews previous experience within Autolign he will be able to hit the ground running and we look forward to him joining the team.

We also welcome Jarrad Critchley to the business as well. Jarrad joins the team as the 2ic for Autolign Manukau.

In other branch news Scott Lippers is no stranger to the Dunedin branch he has been working there for 4 years and took over as Branch Manager in March.

Jess Buxton started off in the business part time and then in a 2ic role before stepping into the Branch Manager role at Hamilton.

Check out our new look vehicles on a road near you!

Autolign has a huge range of Four Wheel Drive shock absorbers to cater for all requirements of both off and on road driving.

Magnum TDT

Designed to master the entire spectrum of New Zealand four wheel drive on and off road driving, Monroe Gas Magnum TDT 4WD shock absorbers combine Tenneco's exclusive Twin Disc Technology with the legendary durability of one of Monroe's most popular 4WD replacement shock absorbers, the Monroe Gas Magnum.

- Nitrogen Gas Charged
- 1-3/8" (35mm) bore
- Multi stage, high displacement valving
- Non ride height dependent
- Priced from \$95.00 ea

Adventure

The Monroe® research engineering team has developed a range of shock absorbers for 4x4 vehicles that are perfectly adapted to the 4x4 drivers' needs. With its innovative design, these special shock absorbers offer customers freedom to drive their 4x4 wherever they want to go.

- High performance on-road and off-road
- Adapted to the varied European environments
- Optimum damping control ensures superb tyre to road contact
- Twin and mono tube construction
- Strong and durable
- Priced from \$60.00 ea

RAW 4x4

RAW 4x4 design and develop a complete range of heavy duty shock absorbers to survive the toughest of Australasian conditions. From the rugged Nitro shocks to the large bore Nitro Max, and performance orientated Predator mono tube, RAW 4x4 has multiple options for on and off road.

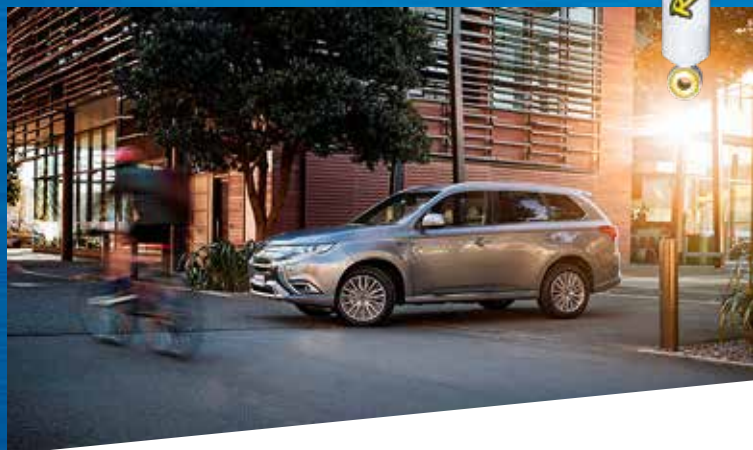

- 35mm - 41mm large bore dampers
- Expanded body for extra capacity
- All weather multi lip seal & oil for consistent performance in all types of conditions
- Increased oil capacity vastly improving the shock absorbers ability to dissipate heat and operate cooler over long distances and constant high speeds
- Priced from \$55.00 ea

Bilstein

German engineering and its Motorsport pedigree means Bilstein's 4x4 series shocks have precise adjustments to increase the suspension's carrying capacity, and reduce uncontrolled movement on SUVs and light trucks. A more confident steering feel guarantees better control of your vehicle, safer handling and increased traction.

- Bilstein mono tube technology
- High gas pressure and a longer service life even when pulling trailers or driving off-road
- Individually fine-tuned in the BILSTEIN road test
- Digressive valving instantly reacts to changing road surface conditions for maximum comfort and control on and off-road
- Priced from \$160.00 ea
