**COMPLETE THE NEEDS
ASSESSMENT SURVEY**

<http://informis.co.nz/survey>

As the Western Sydney Primary Health Network (WSPHN), WentWest is leading a comprehensive needs assessment of mental health, suicide prevention, drug & alcohol services within the Hills, Parramatta, Blacktown, Auburn and Holroyd local government areas.

We would like to invite our Aboriginal and Torres Strait Islander community members & stakeholders that are working with the Aboriginal community to inform and guide system improvements to mental health and wellbeing, suicide prevention, drug & alcohol services.

The feedback will provide WentWest with a greater understanding about service gaps, availability, access and quality towards better care and recovery services.

Creating a healthier future for our community.

Date: Tuesday, 5th April 2016

Time: 9:45am – 12:00pm

Address: Marrin-Weejali Aboriginal Drug & Alcohol Centre, 79-81 Jersey Road, Blackett NSW 2770

Morning Tea provided

Topics include:

- Local services that support wellbeing and recovery
- Unmet service needs to support Aboriginal health and wellbeing
- Concerns about service quality and suggested improvements
- Availability and access of services
- Cultural and language appropriateness.
