Who do you tell?

You have the choice how much you tell about your needs.

When people at the workplace know about your needs it makes it easier for them to help you.

Case study

Robert was embarrassed to tell his work placement teacher that he couldn't read. On his first day in the job his supervisor asked him to read some instructions. She couldn't understand it when Robert wasn't able to do it. If the employer had been told about Robert's needs, she could have given the instructions in a way that Robert could understand.

What does your supervisor need to know about your needs?

- Are there things that you will need help with?
- Are there things that you need to be reminded about?

Talk to your teacher or parents/guardian about how much you want people at the workplace told about your needs.

- * Are there some things that you should keep private, and not talk about?

Is there anything that you need to make it easier for you to do these activities?

Who are 2 people that you can talk to if you have problems in the workplace?

getting ready

When getting ready for your work placement there are three main things you should do:

1. Find out what is the right thing to wear at the workplace. Make sure that you are neat and tidy and clean.
2. Find out everything you can about your workplace.
3. Find out how to get there.

How to look neat

1. **Dress appropriately.** This means wear clean clothes, and clothes appropriate to the workplace. **Clean clothes** need to be worn everyday.
2. **Be clean.** Have a bath or shower and wash your hair before you leave home. Use a deodorant but not too much perfume.
3. **Have your hair neat and tidy.** If your hair is long, make sure you comb it and tie it back. Hair should be clean and just washed, and neatly trimmed to your style.
4. **Nail care is important.** Check that nails are clean and manicured. Do not wear nail polish as it can easily get chipped.

5. **Clean your teeth twice a day;** before you go to bed, then before you leave home to go to work. This will make sure that your breath is fresh. Clean teeth help to make you look good.

6. **Make sure you wear the right footwear.** Shoes must be cleaned. Thongs are not to be worn on work placement.

Check what footwear you need for the job you will be doing. If you are going to be on your feet all day don't wear high heels.

7. **Remember to take a coat** if it is going to be cold. If it looks like rain, take a raincoat.

8. If you are working outside in the sun, **take a hat, sunglasses and sunscreen.**

The right clothes

What are the right clothes for your job? For example, if you will be working in a garden, you could wear overalls. For other jobs a uniform or smart/dressy clothes would be right to wear.

What clothes would be right for your work placement?

getting to know your workplace

Activity

1. Ask your workplace supervisor to point out the main features of the workplace. Things like:

Reception/front office 

Telephones 

Toilets/restrooms 

Canteen/lunch room 

Fridge 

Emergency exits 

First Aid 

Tea/coffee/water facilities

Noticeboard

Locker

Any restricted or “no-go” areas

Other places you should know about

2. Who is your workplace “key person”? This could be your supervisor, or the person you have been told to report to.

3. Find out if there is a **map** of the workplace, or a floor plan.

4. Paste the map on the next page and label some of the important areas.

If you can't get a map, draw a picture or take a photograph.

5. Are there any **signs that you don't understand**? Write what they say here.
