

The M.E.N.T.O.R. Approach & Recap

The Business Case for mentoring NB-MAP (New Brunswick Mentor Apprentice Program) helps businesses develop a strong learning workplace culture, ensuring skills, behaviours, attitudes are effectively passed from one generation of worker to the next.

The M.E.N.T.O.R. Approach teaches mentors how to provide effective on-the-job mentoring, featuring a simple and easy-to-remember tool mentors can apply to every lesson to enable successful workplace teaching and learning.

Class size: maximum 12. Session duration: 4 + 2 hours.

Course philosophy

As it takes a team of mentors to train a mentee, this is a highly interactive hands-on course with practical exercises and group discussions where participants learn from each other.

Course purpose

The word "mentor" comes from a Greek myth. Mentor was the name of a teacher and protector who was chosen to care for a friend's son. Passing on workplace knowledge and skills is what mentorship is all about. It is therefore important for a mentor to know how to pass on their industry knowledge, professional attitudes and behaviours. They need to be a learning guide and a skill expert.

Mentorship will also be increasingly important: workplaces will be more diverse and inclusive, and research shows the millennial generation largely wants a workplace mentor. This is the reason for the focus on teaching and learning skills in the workplace as a part of a workplace mentoring culture.

Recap

As adults learn through repetition, this is a 2 part course. A Recap will be scheduled within 3 months of completion of The M.E.N.T.O.R. Approach.

Learning outcomes

At the end of the course, participants will:

- ✓ gain a simple and useful memory tool to be a great mentor
- ✓ learn strategies for effective mentoring in the workplace
- ✓ improve their ability to pass on their skills and knowledge to a learner
