

BRAMPTON COURTHOUSE CONSTRUCTION UPDATE

New Construction Hoarding in Front Entrance – April 13, 2017

As part of the ongoing front entrance modification project, the contractor will be erecting construction hoarding near the south east corner of the front entrance to help facilitate construction work for the new temporary entrance. The hoarding will include the area between the escalator and windows that is beside the information desk. Courtroom docket boards will be relocated on the main floor so they remain available to the public.

It is expected to be completed by Tuesday, April 18, 2017. The hoarding will be in place for approximately three weeks.
