

## The Success **FACTOR**

### **EMPOWERING STUDENTS TO DEVELOP A MIND-SET OF SUCCESS**

The Success \*FACTOR is a dynamic process designed to help students navigate their way through the challenges of the senior years at high school and prepare them for future success in a fast-changing world.

The aim of this inspirational 55-minute Presentation is for students to gain an overview of what they can do to take greater charge of their mental wellbeing and increase their level of self-motivation. The use of visuals and music are used to fully engage students and encourage their participation during this interactive Presentation.

In addition, each participant receives a 'My Success FACTOR' booklet for note taking and a 'quick reference guide' to use in preparation for exams and other key events in their life.

\*FACTOR is an acronym for the 6 key components which make up a success mindset and is based on the latest mind-science technology.

Follow-up workshops for small groups and one to one coaching sessions for individual students are available as support resources.

Karen Claridge is a Motivational speaker and Student Direction Career Coach with over thirty years as a Performance Coach in Europe and here in Australia.

Karen is passionate about sharing with students the latest approaches and ways of thinking which will help them to excel and fulfil their true potential.

If you would like further information about this presentation and her other innovative programs, please contact Karen Claridge for a meeting to discuss how she can help your students fulfill their potential.
