

## 310S & 310T Diesel Mechanics/Technicians

We are currently seeking 310S / 310T Mechanics/Technicians for a full-time opportunity to maintain and repair our fleet of Sweepers, Water Trucks, Dump Trucks, Live Bottom Trailers and Snow Plows.

Do you take pride in your work? Is safety an important value for you?

At **A&G The Road Cleaners Ltd.**, we ensure our equipment is a safe for our drivers so they can do their best quality work. We are also an essential service with many growth opportunities.

We offer the following:

Competitive wages  
Attractive benefit package  
Performance perks  
Night shift premiums  
Plenty of hours available with overtime  
Uniform provided

**Responsibilities:** Perform routine heavy-duty truck inspections, diagnose mechanical problems, repair vehicles including engines, HVAC, brakes, frame, steering, suspension, tires, wheels, drive train as well as electrical system components.

### Qualifications

- Min 2 years experience as a diesel mechanic/technician
- 310S/310T License
- Minimum Class G Driver's License
- You possess knowledge of all vehicle systems and have the skills and technical abilities to effectively diagnose repairs and identify recommendations for maintenance.
- Your strong attention to detail will ensure driver satisfaction. You take pride in performing maintenance and repairs in an efficient and professional manner.
- You are able to work independently or as part of a team.
- Ability to perform in a fast-paced environment
- Previous experience in winter works operation is an asset.
