

PARIS

Warm and gentle, natural and tranquil like the light of a spring morning. The natural French oak colours have been largely left as the tree created them. A touch of lime washing to accentuate just enough of the soft organic lines of the grain to remind you of the strength and inherent beauty of this species. Some knots and natural vein will be visible but muted in appearance.

Available size: 190mm x 14mm x 3mm

Length: 1900mm

Timber is a natural product. Colour will vary from printed versions and samples. Boards will vary across every floor. It is this variation that gives timber its natural beauty and appeal.
