

## EXPANDED MACHINING CAPABILITIES

Over the last six months, Kerr Engineering has invested heavily in new equipment to expand our machining capabilities.

Our new equipment includes:

- 3.9 METRE OKUMA B300-W MULTI AXIS LATHE
- 12 TONNE KURAKI KBT-13E.A 5 AXIS MILLING MACHINE
- 10 METRE MECOF CS-83 3 AXIS BED MILLING MACHINE

Our range of machining services include:

- CNC Machining
- Fitting and Turning
- Milling and Threading
- Close Tolerance Machining
- Tooling and Mould Manufacturing
- Component and assembly Production

All of this work is completed by our experienced machinists in accordance with our ISO 9001 : 2008 Quality Management System.
