ABOUT THE COURSE

Second in our contract law series and our CMP Certification, this course is designed to address the most recent issues confronting executives in a contract process. You will examine the issues arising on formation and how to ensure parties maintain control when establishing their contractual obligations.

This course will focus on how judges' deal with issues of interpretation of contracts and how to ensure that ambiguity is avoided in documentation.

You will also learn to interpret recent decisions of judges and the impact of these decisions on contract law and its practice. The use of well used clauses requires precise drafting to ensure the clauses achieve their desired purposes.

The instructor will spend detailed time teaching participants how to interpret examples, and take their interpretative and analysis skills back to their workplace.

WHO WILL BENEFIT

- This practical intermediate course is relevant for ALL those who have dealings with contracts in their everyday business environment.
- The course assumes at least a fundamental knowledge of the law. In order to discuss these more detailed concepts presented in this course, all participants must understand the basics.
- It suits people who have a strong practical background and wish to explore some topical areas in more detail.
- Often people who have completed law degrees attend this course due to its strong practical focus and application.
