SUMMIT DAY ONE
Monday 3rd December 2018

09:00 OPENING | Opening remarks from the Chair

09:10 KEYNOTE ADDRESS | Overview from Health Infrastructure
Sam Sangster, Health Infrastructure NSW, NSW Government

09:45 CASE STUDY | Prince of Wales Hospital Redevelopment: transforming health services for the Randwick community
Tobi Wilson, General Manager, Prince of Wales Hospital, South Eastern Sydney Local Health District

10:20 Patient Led Design
• Does better design equal better care and recovery
Julian Ashton, Principal, BVN

10:55 Networking and refreshment break

11:15 CASE STUDY - SAHMRI 2
• Innovation in design - How Woods Bagot are utilising a restrained approach in the design of the South Australian Health and Medical Research Institute (SAHMRI) 2
Invited: Woods Bagot, Architects of SAHMRI 2

11:50 Greenfield vs Brownfield - Why brown is the new green!
• Public vs private demands for infrastructure
• Competing preferences across states
• Cost effectiveness of both options
Mark Mitchell, Director, Billard Leece Partnership

12:25 Lunch and networking break

13:25 The Liverpool Innovation Precinct - reimagining how health, education and research is undertaken individually and collaboratively to drive innovation
Amanda Larkin, Chief Executive, South Western Sydney Local Health District
Prof Les Bokey, Clinical Dean, Chair Surgery, School of Medicine, Liverpool Hospital

14:00 Innovation in the Design and Procurement of Hospital and Healthcare infrastructure – National and International Case Studies
This presentation will provide an insight into completed projects in Australia, Canada and Asia.
It will contrast how innovation has been introduced in both the operational and facility environments
Bruce Crook, Director, Silver Thomas Hanley
14:35 PANEL: Major Challenges in Hospital Development in Australia today
- Finance and funding
- Skills and staffing
- Innovation

Bruce Crook, Director, Silver Thomas Hanley
Mark Mitchell, Director, Billard Leece Partnership

Further panelists to be confirmed

15:10 Networking and refreshment break

15:30 CASE STUDY | The New Clinical Building at Cabrini Hospital
- The future of hospital design
- Innovation through design
- What should we be looking at doing differently in the planning stages

Sue Williams, Chief of Health Operations, Cabrini Health

16:05 CASE STUDY: The Westmead $1B redevelopment
-overcoming the challenges from a construction perspective
- designs through delivery – what we have learnt
- the pros & cons of largescale redevelopments

Brendan Sweeney, Regional Director, Multiplex Construction

16:40 CLOSING | Closing remarks from the Chair

16:50 Networking drinks
SUMMIT DAY TWO
Tuesday 4th December 2018

09:00 OPENING | Opening remarks from the Chair

09:10 PPPs: Financing vs Delivery: Public vs Private
- The potential benefits of public funding and private delivery of health facilities and services
- The risks – does private sector management lead to greater efficiency in hospital delivery
  David Keenan, Principal, HDR

09:45 Facilities Management: Overcoming the challenges facing PPP’s in hospitals
- Summary of key challenges facing PPP’s in hospitals and suggestions for overcoming them
  • Opportunities for innovation in the hospital delivery process
  Bill Cotter, General Manager Health, Spotless Group

10:20 Networking and refreshment break

10:50 The Hospital of the Future – How digital technologies can change hospitals globally
- How digital technology can impact both design and infrastructure of our healthcare facilities
  • What we should be looking to achieve
  Luke Baxby, Partner, Deloitte
  Andy Lane, Director, Deloitte

11:25 Achieving real sustainable and innovative outcomes through sustainable design for large hospital infrastructure projects
  Caimin McCabe, Director, Cundall

12:00 Co-creating social value on hospital infrastructure projects
  • Creating social value from hospital infrastructure spend.
  • Collaborating across sectors to create social value.
  • An exemplar of collaborative social value – Westmead Hospital Redevelopment.
  Professor Martin Loosemore, Professor of Construction Management, UNSW
  Joanne Osborne, Director, Damajo Consulting

12:35 Lunch and networking break

13:35 CASE STUDY: The $689m Royal Hobart Hospital Redevelopment
  • Update of Stage 1 - scheduled for practical completion mid next year.
  • Addressing the major challenges of redeveloping a congressed site with ageing infrastructure.
  • Balancing the daily hospital operations with construction progress.
  Ben Moloney, Project Director, Royal Hobart Hospital Redevelopment
14:10  Tricks and pitfalls of gaining development approval for health facilities and associated infrastructure
- Different planning systems and approaches for gaining health facility approval in NSW, QLD and VIC
- Develop an approval strategy, identify project risks and mitigation measures
- Consultation with stakeholders – when you should start and with whom
- Vertically integrated planning – combining land use
- Case studies of successful strategies to gain project approvals
  Adam Coburn, Director, Mecone Planning

14:45  Civil Services Design Around Healthcare Buildings Hot Topics
- Flood events to design for depending on the facilities nature and operation
- Safe access to the facility within wet weather
- Storm design requirements for stormwater serving healthcare facilities
  Michael Cahalane, Director – Civil & Water Engineering, Warren Smith & Partners

15:20  CLOSING | Closing remarks from the Chair

15:25  Close of Conference and networking refreshments
