LITHIUM & BATTERY METALS

With the transition towards electric vehicles and the rise in battery storage technologies well underway, the future looks bright. While bulls and bears debate oversupply vs undersupply scenarios, the WA Government’s Lithium Taskforce seeks to establish Australia as a downstream powerhouse to supply the burgeoning multibillion-dollar industry. Join us at the 2nd annual Lithium & Battery Metals Conference as we chart a course through the rhetoric and reveal what’s on the horizon for the global battery sector.

KEY TOPICS INCLUDE:
– Updates from upstream and downstream projects
– Comprehensive analysis across all battery commodity markets
– New technologies and demand pipelines
– Gov and Industry commentary on Australia’s downstream value-add potential

INAUGURAL

ASIA-PACIFIC NICKEL

There is a global shift currently underway as energy companies move towards batteries for energy storage and the automotive industry prepares for the next generation of electric vehicles to hit the market. This, combined with the traditional steel market continuing to strengthen, has resulted in the nickel industry hurtling towards a new era. The Asia Pacific Nickel Conference proposes two days of in-depth discussions around the current changes and challenges affecting the nickel market.

KEY TOPICS INCLUDE:
– Regional & international market forecasts
– The outlook for stainless steel
– The impact of renewable energy on nickel
– Mining case studies & the changing industry
