

SCANTEK

SCANNING DETAILS

Scantek provides leading ID verification technology to Australia's largest telecommunications company as well as to retailers in liquor and major casino groups.

Our technology allows a business to scan, verify and detect fraudulent ID documents in just 3 seconds. The system securely manages compliance and reporting for personal information as well as ensuring that you're meeting your business and regulatory needs.

Scantek creates trusted relationships between you and your customers.

SCANNERS CAN VERIFY:

- Australian Drivers Licences
- Australian Proof of Age cards
- Australian Passports
- International Passports
- International IDs (optional)

CHECK FOR:

- Fake IDs
- Underage patrons
- Expired IDs
- Check Ban lists
- Verify ID with issuing authorities

RECORDS AND STORES:

- Full name
- Date of Birth
- ID Type
- ID number
- Photo of Customer
- Time and Date of Scan
- Scan operator
- Scan outcome
