GET HANDS-ON WITH AN EXPERT: TABLEAU IN PRACTICE

A one day - highly-practical and hands-on - training course that introduces the most important and useful techniques for utilising Tableau software in your organisation. It’s aimed at professionals who want to learn how to develop dashboards and apply data visualisation best practices using one of the most widely-used insights and data visualisation tools in the market. It can also help leaders who need to successfully manage and implement data visualisation and BI projects and who need to create and deliver impactful storytelling from data through Tableau in their organisation.

3 April 2020 • Sydney

Pre-requisite: Delegates are requested to bring a laptop with them to this training course. For queries regarding this, please email training@informa.com.au

Our Expert Course Instructor

Felipe Rego, Data Science & Analytics Partner
Felipe is a leading advanced analytics and data science partner, working with teams in a range of different organisations and helping them build, manage and enhance their data science and visualisation solutions. Strategically aligned, commercially oriented and above all, customer centred, Felipe’s unique methodologies help organisations stay competitive and create a solid pathway for future growth.

Key Learning Objectives

► Develop basic yet practical working knowledge in Tableau
► Master key concepts and techniques to build practical data visualisations in Tableau
► Explore ways to build impactful visualisations that tell effective stories using Tableau
► Learn how to load, transform, clean and present data in Tableau
► Work with a variety of datasets to build effective dashboards in Tableau

ABOUT THE COURSE

This course is different. It’s a practical, hands-on session with an expert in Tableau that will help you gain working knowledge and specific examples of how to best leverage and build impactful visualisations using Tableau software. As one of the most popular data visualisation tools in the market, Tableau knowledge is in increasingly high demand and professionals that can master and deliver effective and powerful storytelling with Tableau will continue to have an advantage in the marketplace.

The course goes through all the key features of Tableau and utilises a variety of datasets across retail, banking and other industries to create a realistic approach to tackling data visualisation solutions. It mimics real-world visualisation projects and takes participants from project definition to data to insights in an interactive and engaging session.

WHO WILL BENEFIT

Anyone who wants to understand how analytics and BI tools and, specifically, Tableau is driving competitive advantage in teams and organisations but have not had any (or major) exposure to the tool yet. It can also be beneficial to those who want to pursue a change in career and work more closely with BI and data visualisation teams but have not had a chance to figure out how to go about it. Lastly, it can benefit anyone who works (or manages a team) in a business or technical role and uses data to tell stories but want to have a different/new perspective in the field and practical experience to take away.

WHAT OUR CLIENTS SAY

“Really enjoyable course in an exciting and growing subject. Felipe was an enthusiastic, encouraging and engaging presenter!”

Business Intelligence Lead, Forensicare

“Felipe was very knowledgeable in skills, theory, best practices and current information on data visualisation. Very engaged and supportive in listening to our ideas and input with great discussions and teaching.”

Creative Designer, UNSW Sydney

EXPERT COURSE INSTRUCTOR

Felipe Rego, Data Science & Analytics Partner

Felipe is a leading advanced analytics and data science partner, working with teams in a range of different organisations and helping them build, manage and enhance their data science and visualisation solutions. Strategically aligned, commercially oriented and above all, customer centred, Felipe’s unique methodologies help organisations stay competitive and create a solid pathway for future growth.

Felipe has a unique combination of in-depth technical expertise (including developing code and programming in analytical tools) and a high level of business experience with over a decade working in analytics teams, marketing, research and business strategy. This allows him to identify and understand the issues that impact his clients’ businesses and translate them into the complex language of analytics and data science to find the best solutions. Because of this, Felipe is highly in demand with marketing, sales, finance, technology and strategy teams. He excels at delivering robust analytical solutions that are easy to use, understand and implement. Felipe’s unique methodology takes a holistic approach to using data and science to improve whole organisational performance and reduce costs.

Felipe is also an analytics instructor with experience disseminating practical, actionable advanced analytics and data visualisation techniques in both classrooms and online settings. The organisations he works with find that partnering with Felipe results in a more engaged and capable workforce. It’s not just the organisation as a whole that benefits - individuals feel more prepared to step up to their next challenge and confidently make use of data and analytics in their day-to-day work.

When Felipe is not partnering with clients or helping students, he’s a research candidate in Learning Analytics at The University of Sydney. As part of his research, Felipe makes sense of students’ digital traces and looks at the role learning analytics dashboards play in influencing learning outcomes. His research has also been focused on exploring patterns of students’ use of data and analytics in their day-to-day work.

Alongside all this, Felipe is also a blogger, writing regularly on a wide range of topics including predictive analytics, statistical learning and data visualisation. Recognised internationally for his thought leadership, Felipe received over 82,000 visitors to his blog from over 180 countries last year and some of his articles have been ranked #1 in Google search. Felipe is widely referenced by many sources and leading educational institutions including StackOverflow, Udacity, Western Michigan University, UC Santa Barbara and Edinburgh Napier University among others.

Course Outline

**Morning**

**Fundamental topics in analytics and BI**
- Explore the fundamentals and historical developments of BI tools and visualisation
- Showcase and explain in layman's terms the latest trends and hot topics in BI tools
- Discuss and define a variety of concepts and use cases in analytics and BI

**Building and managing a successful capability in your organisation**
- Making sense of your organisation’s BI and analytics capability and maturity
- Understanding of what makes organisations do BI and basic analytics right
- Introduce and clarify roles, tools, techniques and tactics needed in a BI capability

**A brief overview of BI and analytics tools and softwares**
- Discuss a variety of BI and analytics tools and software options
- Differences between different types of tools and best practice in utilising them
- Overview of Tableau in the context of other tools’ capabilities and applications

**Hands-on Practice: Introduction to analytics in practice**
- Explore introductory concepts in statistics and probability
- Explore and work through a simple Exploratory Data Analysis (EDA) exercise
- Utilise a popular business tool to interpret and summarise EDA results

**Afternoon**

**Hands-on Practice: Working as a business analyst in the aviation industry**
- Explore an aviation-related dataset in Tableau to come up with questions
- Answer questions utilising best-practice visualisation techniques in Tableau
- Publish, present and deliver a concise and impactful data visualisation result

**Hands-on Practice: Working as a marketing analyst in the banking industry**
- Explore a customer banking dataset in Tableau to come up with questions
- Answer questions utilising best-practice visualisation techniques in Tableau
- Publish, present and deliver a concise and impactful data visualisation result

**Hands-on Practice: Working as a insights analyst in the retail industry**
- Explore a retail dataset in Tableau to come up with questions
- Answer questions utilising best-practice visualisation techniques in Tableau
- Publish, present and deliver a concise and impactful data visualisation result

**BI, data visualisation and analytics in action**
- Revisit main themes, tools, techniques and strategies
- Build a practical action plan to apply learnings to your organisation
- Group discussion, final reflections and insights

**Would You Like To Run This Course On-Site?**

Informa Corporate Learning: On-site & Customised Training

If you have 8+ interested people, an onsite course can be an ideal solution. Speak with Anton Long or Holly Baldwin on +61 (02) 9080 4455 to discuss your customised learning solution, or email training@informa.com.au
**Informa Corporate Learning – On-site & Customised Training**

Informa Corporate Learning has a long-standing track record of delivering very successful customised learning solutions achieving real and measurable value for our clients through our senior training consultants.

If you have 8+ interested people, an on-site course can be the ideal solution – giving you the opportunity to customise our course content to your specific training needs, as well as attracting significant savings compared to public course costs.

**Why Choose On-site With Informa Corporate Learning?**

1. **Custom design** – Together, we will identify the best blended learning solution for your culture, your people and your training objectives.
2. **Quality Assured** – We design market-leading training programs, concepts and methodologies, with a 400+ course portfolio. Our rigorously selected 900+ instructor faculty are recognised experts in their field. Quality of their content and delivery methods is assured through continuous monitoring and evolution.
3. **On-site training** is a cost effective way to train your people and achieve your defined outcomes.

**Our Long Standing Clients Include:**

ActewAGL, Ajilon, Ambulance Victoria, ANU, Arrow Energy, Australian Super, Barrick, BHP, Chevron Australia, Coffey International, ConocoPhillips, CSIRO, Dalrymple Bay Coal Terminal, Department of Education, Department of Planning, Electricity Generating Authority of Thailand (EGAT), ENI Australia, EY, Fortescue Metals Group, Health Purchasing Victoria, IBM, IP Australia, Jemena, Litmus Group, Metro Trains, Office of the National Rail Safety Regulator, Origin Energy, Pacific National, PT Freeport, Public Transport Authority – WA, QGC – BG Group, Queensland Rail, Rio Tinto, Romgaz, SA, South Australia Health, Telstra, Transport & Infrastructure, UBS, Woodside and more...

Speak with Anton Long or Holly Baldwin on +61 (02) 9080 4455 to discuss your customised learning solution, or email training@informa.com.au
