

# PROFESSIONAL PEELS

## GLYCOLIC PEEL

A deeply penetrating peel that loosens dead skin cells and assists with acne and congestion. Containing Hyaluronic Acid to boost hydration, skin is left cleaner, clearer and refreshed. Also recommended for mild photo damage and acne with visible peeling is unlikely.

## REVEAL PEEL

An advanced layering peel containing a complex blend of AHA/BHAs to target UV damage and prematurely aged skin. Improves skin texture and reveals a fresher, smoother, more youthful complexion. Visible 'eraser' peeling may occur 3-5 days post peel application

## LACTIC PEEL

This super hydrating and brightening peel containing resveratrol, is recommended for dry, mature and sensitive skin types. Safe and gentle, skin is left ultra-hydrated, smoother and more evenly toned.

## NEUTRALISING SOLUTION

asap neutralising solution is enriched with Aloe Vera and is to be used in conjunction with asap glycolic peel to neutralise.

## AHA/BHA MASK

This professional only, exfoliating treatment mask, softens the bonds that hold dead skin cells together, assisting with exfoliation and reducing pore obstruction. The clay base also draws impurities from the skin, and with the pH buffered to 4.5, it is suitable for teenage, through to mature skin.

## GYM FOR THE SKIN

asap's six Gym for the Skin workouts combine asap peels and serums to create leave on masks that instantly soften and hydrate the skin.
