

The Handling Bullying Questionnaire (HBQ)

Teachers have alternative ways of dealing with incidents of bullying in a school.

To some extent, what is done depends on the circumstances in which the bullying takes place, and the severity of the bullying. It is, of course, sometimes difficult to generalize, but in answering the following questions, indicate what you think you **might** do.

Imagine the following scenario:

A 12-year-old student is being repeatedly teased and called unpleasant names by another, more powerful, student who has successfully persuaded other students to avoid the targeted person as much as possible. As a result, the victim of this behaviour is feeling angry, miserable, and often isolated.

Please tick the answer which is closest to what you think you would do.

Note: *Feel free to make copies and use at your school with staff members. Afterwards you may find it useful to discuss why members answered as they did. It can be used to identify there is a general consensus or differences of opinion in a school staff about how cases of bullying should be handled.*
