The GlobeScan Report on Issues & Reputation

Global Public Opinion on the Issues That Affect Reputation

How is corporate reputation evolving across the world?

Which public policy issues are increasing in importance for consumers and Opinion Leaders?

What are the key societal trends that pose particular challenges or opportunities for corporations?

Which companies and sectors have the strongest reputations across 20 countries?

What are the drivers of industry reputation?
The GlobeScan Report on Issues & Reputation is an international public opinion study that identifies, tracks, and delivers insight into the societal trends that impact the performance and reputation of your business.

This research-based management tool monitors the external stakeholder views that affect reputation and issues management, and allows companies to make informed decisions on initiatives, strategies, and communications for their strategic plans.

Benefits

• Identify dynamic issues in your markets and their underlying societal trends to keep your company ahead of the issues management curve
• Benchmark, track, and manage your corporate reputation
• Guide communications with external stakeholders
• Improve your government relations functions
• Brief senior executives with research-based insights into current events and emerging issues that matter most to your business

Methodology

GlobeScan ensures the highest research standards for data management and quality control practices and protocols. We adhere to the professional market research standards of ESOMAR. In addition, our Head Office management system is certified to ISO 9001:2000.

The GlobeScan Report on Issues & Reputation is fielded in 19+ countries each year. A random sample of 1,000 average citizens is interviewed in each country. Samples reflect the distribution of age, gender, level of education and socioeconomic status, according to the latest census information for the areas sampled. The surveys are carried out either through telephone or face-to-face interviews, depending on the country.

Respondents are segmented into consumers, shareholders, corporate employees, and Opinion Leaders.
Participating Countries: Issues & Reputation Survey

The 2007 GlobeScan Report on Issues & Reputation encompasses over 19,000 interviews with average citizens and informal Opinion Leaders across 19 countries.
The GlobeScan Report on Issues & Reputation

**Topic List**

- Role of government regulation in free enterprise
- Free enterprise as a model for world development

**Tracking and Demographic Analysis**
- Tracking data for more than 20 questions
- Six standard demographic questions (gender, education, age, household income, community size, religion)
- Proprietary Opinion Leader typology analysis
Findings

The 2006 GlobeScan Report on Issues & Reputation identified IT and computer companies as the most respected industry sector across 19 countries surveyed, while tobacco companies are consistently the least respected. As in 2005, there continues to be an underlying preference for “new economy” industries, notwithstanding the relative importance of other industries on a country’s current economy.

Customize the Survey

Take advantage of this international research platform by fielding custom proprietary questions in participating countries. This is a cost-effective way to obtain high-value, timely metrics on issues directly relevant to your business.

Benefits:

- Benchmark your company’s reputation
- Understand the impact of specific issues on your business
- Develop targeted initiatives and communications by exploring what drives your corporate reputation
- Quantify the effectiveness of your message by testing a current advertising or communications campaign

The cost is €1,700 / US$2,000 / £1,150 per closed-ended question per country. Space is limited – question placement is available on a “first come, first served” basis.
