Education and Skills Development

Level
Certificate II

Course Length
1 Semester

Credit value
All units of competency are nationally recognised. Students will be issued with a Statement of Attainment for all units of competency completed.

Each 70 hours of successfully completed competencies contributes 10 credit points towards SACE Stage 1 completion.

Advice to students
This course suits students needing to improve language, literacy and numeracy skills, including those from culturally and linguistically diverse backgrounds. Successful completion/achievement of Certificate I – EASD or equivalent may be a pre-requisite for enrolment in this course.

Students who do not have Certificate I – EASD will be assessed for appropriate placement within the course on the basis of a pre-enrolment literacy/numeracy assessment.

Course overview
This course builds on the competencies developed in Certificate I Introductory Vocational Education and is designed to provide a further platform from which to further develop language, literacy and numeracy. Students will be able to further build their employability skills and/or work towards further training and education.

This course particularly suits the student from culturally and linguistically diverse backgrounds needing to improve language, literacy and numeracy skills to re-enter the workforce or retain employment opportunities.

Assessment
Assessment is conducted throughout the course. Each competency is assessed according to the criteria set in the training package. Assessment can be flexible to allow for circumstances which may involve hardship, sickness or extraordinary circumstances.

Pathways
On completion of the Certificate, students may move on to a range of training options and employment. Pathways can include apprenticeships, pre-employment training and vocational courses which lead to paid and unpaid community employment.
