COURSE OPTIONS

THURSDAY 4.00 - 7.00PM

CHILD STUDIES
Students learn about children's growth and development from conception to 8 years and critically examine attitudes and values about parenting and care-giving and gain an understanding of the growth and development of children.

DIGITAL PHOTOGRAPHY
Students learn and apply skills in digital photography, design and photo editing software.

DIGITAL VIDEO
Students gain practical skills and knowledge in the craft of film making. They learn how to shoot, capture, edit and distribute video using consumer and industry standard equipment and software.

GEOGRAPHY
Geography deals with diverse environmental phenomena and human activities, including population, landforms, tourism, globalisation, resources, agriculture, hazards and urban planning. Students develop an understanding of the spatial interrelationships between people, places and environments.

PSYCHOLOGY
The study of psychology enables students to understand their own behaviours and the behaviours of others. Psychological knowledge can be applied to improve outcomes and the quality of experience in various areas of life, such as education, intimate relationships, child rearing, employment and leisure.

RESEARCH PROJECT
In the Research Project students choose a research topic that is based on an area of interest, and one or more capabilities (Literacy, Numeracy, Information and Communication Technology Capability, Critical and Creative Thinking, Personal and Social Capability, Ethical Understanding and Intercultural Understanding).

Students use the research framework as a guide to developing their research and applying knowledge and skills specific to their research topic. They create an outcome, evaluate the research processes used and reflect on the relevance of the chosen capability (or capabilities) to themselves and their research project.

THEBARTON SENIOR COLLEGE
STAGE 2 TWILIGHT CLASSES 2016

HOW TO ENROL
If you are interested in enrolling in any of our programs, please phone the College on 8159 3100 or visit our website at www.tsc.sa.edu.au and follow the prompts in the Study Options section.
Most courses are supported by online technologies such as email, podcasts and Moodle.

40 Ashley Street, Torrensville South Australia 5031

THEBARTON SENIOR COLLEGE

Thebarton Senior College is a senior specialist secondary school funded by the SA Government.

The College offers quality education in a wide variety of South Australian Certificate of Education and vocational training courses.

As a United Nations Global Peace School, our students learn in a diverse cultural community that is characterised by positive peace-building relationships.

Located just four kilometres west of the city, it is easily accessed by bus routes 286, 287, 288, H20-H24, H31, H32, B10 and B12 from Adelaide and its suburbs.

YOUR SACE, YOUR WAY

Thebarton Senior College offers Stage 2 students a range of 20 credit SACE subjects in the twilight. This provides students with:

- A variety of choices
- The chance to study a subject of interest
- Small class sizes
- Supportive and experienced teachers
- The advantages that come with one lesson per week:
  - Increased study time during the day
  - Flexibility to undertake part time employment

You can study 1, 2 or 3 Stage 2 twilight classes at Thebarton Senior College while completing Stage 2 at your school.

The College offers the following twilight options in 2016. If you require any further information please contact Keri Fisher, Assistant Principal Curriculum phone 8159 3100.

TUESDAY 4.00 - 7.00PM

CREATIVE ARTS - STAGE, SCREEN AND DRAMA

Students explore acting techniques and apply skills gained in a project of their choice. Drama also provides the flexibility to explore other areas such as production, direction or script design.

ENGLISH STUDIES

Students read a range of extended texts and a number of shorter texts from past, contemporary, and everyday contexts. They focus on the skills and strategies of critical thinking needed to interpret texts.

GEOLOGY

Students design and conduct geological investigations and gather evidence from fieldwork, experiments, and research. They have the opportunity to engage with the work of practising geologists. This course is part of the GeoFutures program with links to the mining and exploration industry.

LEGAL STUDIES

Students learn about the Australian legal system from the local level to its global connections, its origins and functions. Students learn how laws are made and enforced and the legal issues affecting Australian citizens.

NUTRITION

Students explore up-to-date scientific information on the role of nutrients in the body as well as on social and environmental issues related to nutrition. The study of nutrition assists students to reinforce or modify their own diets and lifestyle habits to maximise their health outcomes.

WEDNESDAY 4.00 - 7.00PM

CLASSICAL STUDIES

Students study the Greek and Roman classical worlds, including literary texts from the period and an area of the classical world that interests them.

FOOD AND HOSPITALITY

Students learn about the impact of the food and hospitality industry on Australian society and examine the contemporary and changing nature of the industry. They develop relevant knowledge and skills as consumers and/or as industry workers.

SPECIALIST MATHEMATICS

Students gain the insight, understanding, knowledge, and skills to follow pathways that will lead them to become designers and makers of technology. The subject provides pathways into mathematical science, engineering, computer science, physical sciences, surveying, economics and commerce.

TOURISM

Students develop an understanding of the nature of tourists, tourism and the tourism industry. They investigate local, national and global tourism, and explore tourism as a business. Students gain an understanding of the complex economic, social, cultural and environmental impacts of tourism.

GENDER STUDIES

Students look at the world from the perspectives of women and examine the construction of gender and how being a woman or a man may influence an individual’s experiences and expectations. They explore the diversity of women’s experiences and their relationships to others. They also study gender representation in cultural texts.
