**ANNEXURE 1 TO CERTIFICATE PURSUANT TO SECTION 10.7(1) OF THE ENVIRONMENTAL
PLANNING & ASSESSMENT ACT 1979
RU5 Village Zone as at 16 December 2011**

You are advised that as at the date of this Certificate the subject land is affected by the following matters:-

(a) **STATE ENVIRONMENTAL PLANNING POLICIES**

No 21 - Caravan Parks – Ensures that where caravan parks or camping grounds are permitted under an environmental planning instrument, movable dwellings, as defined in the Local Government Act 1993, are also permitted. The specific kinds of movable dwellings allowed under the Local Government Act in caravan parks and camping grounds are subject to the provisions of the Caravan Parks Regulation. The policy ensures that development consent is required for new caravan parks and camping grounds and for additional long-term sites in existing caravan parks. It also enables, with the council's consent, long-term sites in caravan parks to be subdivided by leases of up to 20 years.

No 33 - Hazardous and Offensive Development – Provides new definitions for 'hazardous industry', 'hazardous storage establishment', 'offensive industry' and 'offensive storage establishment'. The definitions apply to all planning instruments, existing and future. The new definitions enable decisions to approve or refuse a development to be based on the merit of proposal. The consent authority must carefully consider the specifics of the case, the location and the way in which the proposed activity is to be carried out. The policy also requires specified matters to be considered for proposals that are 'potentially hazardous' or 'potentially offensive' as defined in the policy. For example, any application to carry out a potentially hazardous or potentially offensive development is to be advertised for public comment and applications to carry out potentially hazardous development must be supported by a preliminary hazard analysis (PHA). The policy does not change the role of councils as consent authorities, land zoning, or the designated development provisions of the Environmental Planning and Assessment Act 1979.

No 36 - Manufactured Home Estates – Helps establish well-designed and properly serviced manufactured home estates (MHEs) in suitable locations. Affordability and security of tenure for residents are important aspects. The policy applies to Gosford, Wyong and all local government areas outside the Sydney Region. To enable the immediate development of estates, the policy allows MHEs to be located on certain land where caravan parks are permitted. There are however, criteria that a proposal must satisfy before the local council can approve development. The policy also permits, with consent, the subdivision of estates either by community title or by leases of up to 20 years. A section 117 direction issued in conjunction with the policy guides councils in preparing local environmental plans for MHEs, enabling them to be excluded from the policy.

No 50 - Canal Estate Development – Bans new canal estates from the date of gazettal (10th November 1997), to ensure coastal and aquatic environments are not affected by these developments.

No 55 - Remediation of Land – Introduces state-wide planning controls for the remediation of contaminated land. The policy states that land must not be developed if it is unsuitable for a proposed use because it is contaminated. If the land is unsuitable, remediation must take place before the land is developed. The policy makes remediation permissible across the State, defines when consent is required, requires all remediation to comply with standards, ensures land is investigated if contamination is suspected, and requires councils to be notified of all remediation proposals. To assist councils and developers, the Department, in conjunction with the Environment Protection Authority, has prepared Managing Land Contamination: Planning Guidelines.

No 64 - Advertising and Signage - Aims to ensure that outdoor advertising is compatible with the desired amenity and visual character of an area, provides effective communication in suitable locations and is of high quality design and finish. The SEPP was amended in August 2007 to permit and regulate outdoor advertising in transport corridors (e.g. freeways, tollways and rail corridors). The amended SEPP also aims to ensure that public benefits may be derived from advertising along and adjacent to transport corridors. Transport

Corridor Outdoor Advertising and Signage Guidelines (DOP July 2007) provides information on design criteria, road safety and public benefit requirements for SEPP 64 development applications.

No 65 - Design Quality of Residential Apartment Development - Improves the design quality of residential apartment development across the state through the application of a series of design principles. The SEPP recognises that the design quality of residential apartment development is of significance for environmental planning for the State due to the economic, environmental, cultural and social benefits of high quality design. The SEPP operates to ensure that residential apartment development contributes to sustainable development of the state, achieves better built form and aesthetics of buildings and streetscapes, supports housing affordability for wide range of people, better satisfies the increasing demand, the changing social and demographic profile of the community, and maximises amenity, safety and security for the benefit of its occupants and the wider community. The SEPP facilitates timely and efficient assessment of applications for residential apartment development by providing a consistent policy framework and mechanism across the State. The policy provides for the establishment of design Review Panels to provide independent expert advice to councils on the merit of residential flat development.

SEPP (Affordable Rental Housing) 2009 – Establishes a consistent planning regime for the provision of affordable rental housing. The SEPP facilitates the effective delivery of new affordable rental housing by providing planning control incentives and expanding the role for not-for-profit-providers of affordable rental housing. The SEPP also establishes approaches to facilitate the retention and mitigate the loss of existing affordable rental housing. The SEPP aims to support local centres by providing housing for workers close to places of work, and facilitate development of housing for the homeless and other disadvantaged people.

SEPP (Building Sustainability Index: BASIX) 2004 - This SEPP operates in conjunction with Environmental Planning and Assessment Amendment (Building Sustainability Index: BASIX) Regulation 2004 to ensure the effective introduction of BASIX in NSW. The SEPP ensures consistency in the implementation of BASIX throughout the State by overriding competing provisions in other environmental planning instruments and development control plans and specifying that SEPP 1 does not apply in relation to any development standard arising under BASIX.

SEPP (Concurrences) 2018 – Authorises the Planning Secretary to elect to act in place of a concurrence authority for the for the purposes of deciding whether to grant concurrence to a development if the concurrence authority fails to inform a consent authority of the decision concerning concurrence within the time allowed for doing so.

SEPP (Educational Establishments and Child Care Facilities) 2017 - Facilitates the effective delivery of educational establishments and early education and care facilities across the State. The SEPP improves regulatory certainty and efficiency for educational establishments and early education and care facilities through a consistent planning regime that simplifies and standardises planning approval pathways and establishes consistent State-wide assessment requirements and design considerations for these developments. The policy provides for the consultation with relevant public authorities during the assessment process or prior to development commencing for educational establishments and early education and care facilities. The SEPP also aligns the NSW planning framework with the National Quality Framework for early education and care services to enable proponents and consent authorities ensure that new developments or modified premises meet the applicable requirements of the National Quality Framework for the services. The policy supports joint and shared use of the facilities of educational establishments with the community through appropriate design.

SEPP (Exempt and Complying Development Codes) 2008 - Streamlines assessment processes for development that complies with specified development standards. The policy provides exempt and complying development codes that have State-wide application, identifying, in the General Exempt Development Code, types of development that are of minimal environmental impact that may be carried out without the need for development consent; and, in the General Housing Code, types of complying development that may be carried out in accordance with a complying development certificate as defined in the Environmental Planning and Assessment Act 1979.

SEPP (Housing for Seniors or People with a Disability) 2004 – Encourages the provision of adequate, diverse and high quality housing for aged persons and people with disabilities. The SEPP achieves its aims by overriding local planning controls that would prevent the development of housing for seniors or people with

a disability and setting out design principles to achieving built form that is in keeping with the site and local neighbourhood.

SEPP (Infrastructure) 2007 - Provides a consistent planning regime for infrastructure and the provision of services across NSW, along with providing for consultation with relevant public authorities during the assessment process. The SEPP supports greater flexibility in the location of infrastructure and service facilities along with improved regulatory certainty and efficiency. More details about the SEPP, including a guide, are available at www.planning.nsw.gov.au.

SEPP (Mining, Petroleum Production and Extractive Industries) 2007 – Provides for the proper management and development of mineral, petroleum and extractive material resources for the social and economic welfare of the State. This Policy establishes appropriate planning controls to encourage ecologically sustainable development.

SEPP (Miscellaneous Consent Provisions) 2007 - Permits the erection of temporary structures with development consent across the state. The SEPP aims to ensure the safety of persons using temporary structures and protect the environment at the location, and in the vicinity, of temporary structures by specifying relevant matters for consideration.

SEPP (Primary Production and Rural Development) 2019 - Facilitates the orderly and economic use and development of lands for primary production. The aims to reduce land use conflict and sterilisation of rural land by balancing primary production, residential development and the protection of native vegetation, biodiversity and water resources. The SEPP encourages sustainable aquaculture and outlines the criteria for categorising aquaculture as designated development. The SEPP identifies State significant agricultural land, simplifies the regulatory process for water supply in irrigation areas and districts and sets out the considerations for assessing the impact of all proposed development oyster aquaculture.

SEPP (State and Regional Development) 2011 – Identifies and declares development as a State significant development, State significant infrastructure, critical State significant infrastructure or regionally significant development based on a number of factors including location, purpose and capital investment value etc.

SEPP (State Significant Precincts) 2005 - Facilitates the orderly development, redevelopment or protection of important urban, coastal and regional sites of economic, environmental or social significance to the State for the benefit of the state. The SEPP aims to facilitate service delivery outcomes for a range of public services, the development of major sites for a public purpose and redevelopment of major sites no longer appropriate or suitable for public purposes.

SEPP (Urban Renewal) 2010 - Establishes the process for assessing and identifying sites as urban renewal precincts and facilitates the orderly and economic development and redevelopment of sites in and around such precincts. The SEPP aims to facilitate delivery of the objectives of any applicable government State, regional or metropolitan strategies connected with the renewal of urban areas that are accessible by public transport.

SEPP (Vegetation in Non-Rural Areas) 2017 - Protects the biodiversity values of trees and other vegetation in non-rural areas of the State. The SEPP aims to preserve the amenity of non-rural areas through the preservation of trees and other vegetation. The policy establishes the approval pathways for clearing in non-rural areas.

SEPP (Koala Habitat Protection) 2019 – Encourages the conservation and management of areas of natural vegetation that provide habitat for koalas to support a permanent free-living population over their present range and reverse the current trend of koala population decline. The policy provides the state-wide approach needed to enable appropriate development to continue, while ensuring there is ongoing protection of koalas and their habitat. Local councils must ensure approvals for development on a land affected by this policy is consistent with the approved koala plan of management for the land. If there is no approved koala plan of management for a land affected by the policy, local councils must consider requirements of the koala habitat protection

guideline or information prepared by a suitably qualified and experienced person in accordance with the guideline before approving development on the land.

(b) **REGIONAL ENVIRONMENTAL PLANS**

Willandra Lakes REP No 1 - World Heritage Property - Applies to the Willandra Lakes Region in the Shires of Wentworth and Balranald. The purpose of the plans is to protect, conserve and manage this World Heritage Property in accordance with any strategic plan of management. The plan also aims to provide a process of consultation with stakeholders on development and related decisions.

Murray REP 2 - Riverine Land - Ensures the river and its floodplain are able to support a range of productive land uses. The plan coordinates planning along the Murray River and the implementation of planning related aspects of the Murray Darling Basin Commission strategies. 4. If a consent to transfer is required under legislation, see clause 27 as to the obligations of the parties.
5. The vendor should continue the vendor's insurance until completion. If the vendor wants to give the purchaser possession before completion, the vendor should first ask the insurer to confirm this will not affect the insurance.
6. The purchaser will usually have to pay transfer duty (and sometimes surcharge purchaser duty) on this contract. If duty is not paid on time, a purchaser may incur penalties.

If so, this will affect the amount available to the vendor on completion.
12. Purchasers of some residential properties may have to withhold part of the purchase price to be credited towards the GST liability of the vendor. If so, this will also affect the amount available to the vendor. More information is available from the ATO.

2 Deposit and other payments before completion

- 2.1 The purchaser must pay the deposit to the *depositholder* as stakeholder.
- 2.2 *Normally*, the purchaser must pay the deposit on the making of this contract, and this time is essential.
- 2.3 If this contract requires the purchaser to pay any of the deposit by a later time, that time is also essential.
- 2.4 The purchaser can pay any of the deposit by giving cash (up to \$2,000) or by unconditionally giving a *cheque* to the *depositholder* or to the vendor, vendor's agent or vendor's *solicitor* for sending to the *depositholder* or by payment by electronic funds transfer to the *depositholder*.
- 2.5 If any of the deposit is not paid on time or a *cheque* for any of the deposit is not honoured on presentation, the vendor can *terminate*. This right to *terminate* is lost as soon as the deposit is paid in full.
- 2.6 If the vendor accepts a bond or guarantee for the deposit, clauses 2.1 to 2.5 do not apply.

BREACH OF COPYRIGHT MAY RESULT IN LEGAL ACTION

- 2.7 If the vendor accepts a bond or guarantee for part of the deposit, clauses 2.1 to 2.5 apply only to the balance.
- 2.8 If any of the deposit or of the balance of the price is paid before completion to the vendor or as the vendor directs, it is a charge on the land in favour of the purchaser until *termination* by the vendor or completion, subject to any existing right.
- 2.9 If each *party* tells the *depositholder* that the deposit is to be invested, the *depositholder* is to invest the deposit (at the risk of the *party* who becomes entitled to it) with a *bank*, in an interest-bearing account in NSW, payable at call, with interest to be reinvested, and pay the interest to the *parties* equally, after deduction of all proper government taxes and financial institution charges and other charges.

3 Deposit-bond

- 3.1 This clause applies only if this contract says the vendor has agreed to accept a *deposit-bond* for the deposit (or part of it).
- 3.2 The purchaser must provide the original *deposit-bond* to the vendor's *solicitor* (or if no *solicitor* the *depositholder*) at or before the making of this contract and this time is essential.
- 3.3 If the *deposit-bond* has an expiry date and completion does not occur by the date which is 14 days before the expiry date, the purchaser must serve a replacement *deposit-bond* at least 7 days before the expiry date. The time for service is essential.
- 3.4 The vendor must approve a replacement *deposit-bond* if –
- 3.4.1 it is from the same issuer and for the same amount as the earlier *deposit-bond*; and
- 3.4.2 it has an expiry date at least three months after its date of issue.
- 3.5 A breach of clauses 3.2 or 3.3 entitles the vendor to *terminate*. The right to *terminate* is lost as soon as –
- 3.5.1 the purchaser serves a replacement *deposit-bond*; or
- 3.5.2 the deposit is paid in full under clause 2.
- 3.6 Clauses 3.3 and 3.4 can operate more than once.
- 3.7 If the purchaser serves a replacement *deposit-bond*, the vendor must serve the earlier *deposit-bond*.
- 3.8 The amount of any *deposit-bond* does not form part of the price for the purposes of clause 16.7.
- 3.9 The vendor must give the purchaser the *deposit-bond* –
- 3.9.1 on completion; or
- 3.9.2 if this contract is *rescinded*.

- 4.2 If any information needed for the form of transfer is not disclosed in this contract, the vendor must serve it.
- 4.3 If the purchaser serves a form of transfer and the transferee is not the purchaser, the purchaser must give the vendor a direction signed by the purchaser personally for this form of transfer.
- 4.4 The vendor can require the purchaser to include a form of covenant or easement in the transfer only if this contract contains the wording of the proposed covenant or easement, and a description of the land benefited.

5 Requisitions

- 5.1 If a form of *requisitions* is attached to this contract, the purchaser is taken to have made those *requisitions*.
- 5.2 If the purchaser is or becomes entitled to make any other *requisition*, the purchaser can make it only by serving it –

6 Error or misdescription

- 6.1 Normally, the purchaser can (but only before completion) claim compensation for an error or misdescription in this contract (as to the *property*, the title or anything else and whether substantial or not).
- 6.2 This clause applies even if the purchaser did not take notice of or rely on anything in this contract containing or giving rise to the error or misdescription.
- 6.3 However, this clause does not apply to the extent the purchaser knows the true position.

7 Claims by purchaser

Normally, the purchaser can make a claim (including a claim under clause 6) before completion only by serving it with a statement of the amount claimed, and if the purchaser makes one or more claims before completion –

- 7.1 the vendor can *rescind* if in the case of claims that are not claims for delay –
 - 7.1.1 the total amount claimed exceeds 5% of the price;
 - 7.1.2 the vendor serves notice of intention to *rescind*; and

- 7.2 if the vendor does not *rescind*, the parties must complete and if this contract is completed –
 - 7.2.1 the lesser of the total amount claimed and 10% of the price must be paid out of the price to and held by the *depositholder* until the claims are finalised or lapse;
 - 7.2.2 the amount held is to be invested in accordance with clause 2.9;
 - 7.2.3 the claims must be finalised by an arbitrator appointed by the parties or, if an appointment is not made *within* 1 month of completion, by an arbitrator appointed by the President of the Law Society at the request of a party (in the latter case the parties are bound by the terms of the Conveyancing Arbitration Rules approved by the Law Society as at the date of the appointment);
 - 7.2.4 the purchaser is not entitled, in respect of the claims, to more than the total amount claimed and the costs of the purchaser;
 - 7.2.5 net interest on the amount held must be paid to the parties in the same proportion as the amount held is paid; and
 - 7.2.6 if the parties do not appoint an arbitrator and neither party requests the President to appoint an arbitrator *within* 3 months after completion, the claims lapse and the amount belongs to the vendor.

8 Vendor's rights and obligations

- 8.1 The vendor can *rescind* if –
 - 8.1.1 the vendor is, on reasonable grounds, unable or unwilling to comply with a *requisition*;
 - 8.1.2 the vendor serves a notice of intention to *rescind* that specifies the *requisition* and those grounds; and

- 11.1 *Normally*, the vendor must by completion comply with a *work order* made on or before the contract date and if this contract is completed the purchaser must comply with any other *work order*.

- 13.3 If under this contract a *party* must make an adjustment or payment for an expense of another party or pay an expense payable by or to a third party (for example, under clauses 14 or 20.7) –
- 13.3.1 the *party* must adjust or pay on completion any GST added to or included in the expense; but
- 13.3.2 the amount of the expense must be reduced to the extent the party receiving the adjustment or payment (or the representative member of a GST group of which that party is a member) is entitled to an input tax credit for the expense; and
- 13.3.3 if the adjustment or payment under this contract is consideration for a taxable supply, an amount for GST must be added at the *GST rate*.

- 13.5 *Normally*, the vendor promises the margin scheme will not apply to the supply of the *property*.
- 13.6 If this contract says the margin scheme is to apply in making the taxable supply, the *parties* agree that the margin scheme is to apply to the sale of the *property*.
- 13.7 If this contract says the sale is not a taxable supply –
- 13.7.1 the purchaser promises that the *property* will not be used and represents that the purchaser does not intend the *property* (or any part of the *property*) to be used in a way that could make the sale a taxable supply to any extent; and
- 13.7.2 the purchaser must pay the vendor on completion in addition to the price an amount calculated by multiplying the price by the *GST rate* if this sale is a taxable supply to any extent because of –
- a breach of clause 13.7.1; or
 - something else known to the purchaser but not the vendor.
- 13.8 If this contract says this sale is a taxable supply in full and does not say the margin scheme applies to the *property*, the vendor must pay the purchaser on completion an amount of one-eleventh of the price if –

- 13.8.1 this sale is not a taxable supply in full; or
- 13.8.2 the margin scheme applies to the *property* (or any part of the *property*).

- 13.9.1 clause 13.7.1 does not apply to any part of the *property* which is identified as being a taxable supply; and
- 13.9.2 the payments mentioned in clauses 13.7 and 13.8 are to be recalculated by multiplying the relevant payment by the proportion of the price which represents the value of that part of the *property* to which the clause applies (the proportion to be expressed as a number between 0 and 1). Any evidence of value must be obtained at the expense of the vendor.
- 13.10 *Normally*, on completion the vendor must give the recipient of the supply a tax invoice for any taxable supply by the vendor by or under this contract.
- 13.11 The vendor does not have to give the purchaser a tax invoice if the margin scheme applies to a taxable supply.
- 13.12 If the vendor is liable for GST on rents or profits due to issuing an invoice or receiving consideration before completion, any adjustment of those amounts must exclude an amount equal to the vendor's GST liability.
- 13.13 If the purchaser must make a *GSTRW payment* the purchaser must –
- 13.13.1 at least 5 days before the date for completion, serve evidence of submission of a *GSTRW payment* notification form to the Australian Taxation Office by the purchaser or, if a direction under clause 4.3 has been served, by the transferee named in the transfer served with that direction;

- the person who owned the land owned no other land;
 - the land was not subject to a special trust or owned by a non-concessional company; and
 - if the land (or part of it) had no separate taxable value, by calculating its separate taxable value on a proportional area basis.
- 14.5 If any other amount that is adjustable under this contract relates partly to the land and partly to other land, the *parties* must adjust it on a proportional area basis.
- 14.6 *Normally*, the vendor can direct the purchaser to produce a *settlement cheque* on completion to pay an amount adjustable under this contract and if so –
- 14.6.1 the amount is to be treated as if it were paid; and
- 14.6.2 the *cheque* must be forwarded to the payee immediately after completion (by the purchaser if the *cheque* relates only to the *property* or by the vendor in any other case).
- 14.7 If on completion the last bill for a water, sewerage or drainage usage charge is for a period ending before the *adjustment date*, the vendor is liable for an amount calculated by dividing the bill by the number of days in the period then multiplying by the number of unbilled days up to and including the *adjustment date*.
- 14.8 The vendor is liable for any amount recoverable for work started on or before the contract date on the *property* or any adjoining footpath or road.
