- 1A 1.** Words and expression defined or used in Subdivision 14-E of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* or in *A New Tax System (Goods and Services Tax) Act 1999 (Cth)* have the same meaning in the Special Condition unless the context requires otherwise. Words and expression first used in the Special Condition and shown in italics and marked with an asterisk are defined or described in at least one of those Acts.
- 1A 2.** This Special Condition 1A applies if the purchaser is required to pay the Commissioner an *amount in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* because the property is *new residential premises or *potential residential land in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the legislation. Nothing in this Special Condition 1A is to be taken as relieving the Vendor from compliance with Section 14-255.
- 1A 3.** The amount is to be deducted from the Vendor's entitlement to the contract*consideration and is then taken to be paid to the Vendor, whether or not the Vendor provides the Purchaser with a GST Withholding notice in accordance with section 14-255 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*. The Vendor must pay to the purchaser at settlement such part of the amount as is represented by nonmonetary consideration.
- 1A 4.** The Purchaser must:
- (a) Engage a legal practitioner or conveyancer ("representative") to conduct all the legal aspects of settlement, including the performance of the Purchaser's obligations under the legislation and this Special Condition; and
 - (b) Ensure that the representative does so.
- 1A 5.** The terms of the representative's engagement are taken to include instructions to have regard to the Vendor's interests relating to the payment of the amount to the Commissioner and instructions that the representative must:
- (a) Pay, or ensure payment of, the amount to the Commissioner in the manner required by the Commissioner and as soon as reasonably and practicably possible, from monies under the control or direction of the representative in accordance with this Special Condition on settlement of the sale of the property;
 - (b) Promptly provide the Vendor with evidence of payment, including any notification or other document provided by the Purchaser to the Commissioner relating to payment; and
 - (c) Otherwise comply, or ensure compliance, with this Special Condition.
- Despite:

- (d) any contrary instructions, other than from both the purchaser and the vendor;
And
- (e) any other provision in this contract to the contrary.

1A 6. The representative is taken to have complied with the requirements of special condition 1A.5 if:

- (a) Settlement is conducted through the electronic conveyancing system operated by Property Exchange Australia Ltd or any other electronic conveyancing system agreed by the parties; and
- (b) The amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.

1A 7. The Purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the Taxation Administration Act 1953 (Cth), but only if:

- (a) So agreed by the vendor in writing; and
- (b) The settlement is not conducted through an electronic settlement system described in special condition 1A.6.

However, if the purchaser gives the bank cheque in accordance with this special condition 1A.7, the vendor must:

- (c) Immediately after settlement provide the bank cheque to the Commissioner to pay the amount in relation to the supply; and
- (d) Give the purchaser a receipt for the bank cheque which identifies the transaction and includes particulars of the bank cheque, at the same time the purchaser gives the vendor the bank cheque.

1A 8. The Vendor must provide the purchaser with a GST withholding notice in accordance with section 14-255 of Schedule 1 to the Taxation Administration Act 1953 (Cth) at least 14 days before the due date for settlement.

1A 9. A party must provide the other party with such information as the other party requires to:

- (a) Decide if an amount is required to be paid or the quantum of it, or
- (b) Comply with the purchaser's obligation to pay the amount,
In accordance with section 14-250 of Schedule 1 to the Taxation Administration Act 1953 (Cth). The party providing the information warrants that it is true and correct.

1A 10. The Vendor warrants that:

- (a) At settlement, the property is not new residential premises or potential residential land in either case falling within the parameters of section 14-250 of Schedule 1 to the Taxation Administration Act 1953 (Cth) if the vendor gives the purchaser a written notice under section 14-255 to the effect that the purchaser will not be required to make a payment under section 14-250 in respect of the supply, or fails to give a written notice as required by and within the time specified in section 14-255; and
- (b) The amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the Taxation Administration Act 1953 (Cth) is the correct amount required to be paid under section 14-250 of the legislation.

1A 11. The purchaser is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount, except to the extent that:

- (a) The penalties or interest arise from the vendor's failure, including breach of a warranty in special condition 1A 10; or
- (b) The purchaser's reasonable belief that the property is neither new residential premises nor potential residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250 (1) of Schedule 1 to the Taxation Administration Act 1953 (Cth).

The Vendor is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount if either exception applies.

1A 12. This special condition will not merge on settlement.

2. Director's Guarantee and Warranty:

Power to Issue Certificate

1. The Commissioner of State Revenue can issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
 - Land tax that has been assessed but is not yet due,
 - Land tax for the current tax year that has not yet been assessed, and
 - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

Information for the purchaser

4. If a purchaser of the land described in the Certificate has applied for and obtained a Certificate, the amount recoverable from the purchaser cannot exceed the 'amount payable' shown. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

General Information

6. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
7. An updated Certificate may be requested free of charge via our website, if:
 - The request is within 90 days of the original Certificate's issue date, and
 - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

BUILDING REGULATION 51
SALINITY AFFECTING THE MUNICIPALITY**

Some land within the municipality of the Mildura Rural City Council contains high levels of salt resulting in a condition commonly referred to as 'salinity'. Salinity can result in 'salt damp' or 'rising damp and salt attack' which can cause damage to certain building materials such as concrete and masonry.

Council recommends that you make your own inquiries regarding the presence of high salinity on land which you own or are considering to purchase.

If you are proposing to construct buildings on land in the municipality, you should ascertain whether or not special measures should be taken during the construction of these buildings to minimise any effects that salinity may have.

Council provides this information to assist you to make informed decisions about existing buildings or the construction of new buildings in high salinity areas.

Yours sincerely

Mark Yantzes

Due diligence checklist for home buyers

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. This page contains links to organisations and web pages that can help you learn more.

From 1 October 2014, all sellers or estate agents must make this checklist available to potential buyers.

Sellers or estate agents must:

- ensure copies of the due diligence checklist are available to potential buyers at any open for inspection
- include a link to this webpage ([consumer.vic.gov.au/due diligence checklist](http://consumer.vic.gov.au/due-diligence-checklist)) or include a copy on any website maintained by the estate agent or the seller (if no estate agent is acting for the seller).

You can print additional copies of the [Due diligence checklist \(Word, 140KB\)](#).

Urban living

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

For more information, visit the [Commercial and industrial noise page](#) on the Environment Protection Authority website and the [Odour page](#) on the Environment Protection Authority website.

Buying into an Owners Corporation

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

For more information, view our [Owners Corporations section](#) and read the [Statement of advice and information for prospective purchasers and lot owners \(Word, 53KB\)](#).

Growth areas

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

For more information, visit the [Growth Areas Infrastructure Contribution page](#) on the Department of Planning, Transport and Local Infrastructure website.

Flood and fire risk

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

If you are looking at property in a rural zone, consider:

- » Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle. For information about what impacts you should expect and how to manage them, visit the [new landholders section on the Department of Environment and Primary Industries website](#).
- » Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property. The limitations on clearing and processes for legal clearing are set out on the [Native Vegetation page on the Department of Environment and Primary Industries website](#).
- » Do you understand your obligations to manage weeds and pest animals? Visit the [New landholders section on the Department of Environment and Primary Industries website](#).
- Can you build new dwellings? Contact the local council for more information.
- » Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land? For more information, visit the [Department of Environment and Primary Industries website](#).

Earth resource activity, such as mining

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

For more information, visit the [CeoVic page on the Department of State Development Business and Innovation website](#) and the [Information for community and landholders page on the Department of State Development Business and Innovation website](#).

Soil and groundwater contamination

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

For information on sites that have been audited for contamination, visit the [contaminated site management page on the Environment Protection Authority website](#).

For guidance on how to identify if land is potentially contaminated, see the Potentially Contaminated Land General Practice Note June 2005 on the [Miscellaneous practice and advisory notes page on the Department of Planning and Community Development website](#).

Land boundaries

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

For more information, visit the [Property and land titles page on the Department of Transport, Planning and Local Infrastructure website](#).

Planning controls affecting how the property is used, or the buildings on it

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions -known as encumbrances - on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Proposed or granted planning permits

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

The local council can give you advice about planning schemes, as well as details of proposed or current planning permits. For more information, visit the [Planning Schemes Online on the Department of Planning and Community Development website](#).

A cultural heritage management plan or cultural heritage permit may be required prior to works being undertaken on the property. [The Aboriginal Heritage Planning Tool on the Department of Premier and Cabinet website](#) can help determine whether a cultural heritage management plan is required for a proposed activity

Safety

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites or other potential hazards.

For more information, visit the [Consumers section on the Victorian Building Authority website](#) and the [Energy Safe Victoria website](#).

Building permits

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

For more information about building regulation, visit our [Building and renovating section](#).

Aboriginal cultural heritage and building plans

For help to determine whether a cultural heritage management plan is required for a proposed activity, visit the [Aboriginal Cultural Heritage Planning Tool section on the Department of Premier and Cabinet website](#).

Insurance cover for recent building or renovation works

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

You can find out more about insurance coverage on the [Owner builders page on the Victorian Building Authority website](#) and [Domestic building insurance page on the Victorian Building Authority website](#).

Connections for water, sewerage, electricity, gas, telephone and internet

Unconnected services may not be available or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

For more information, visit the [Choosing a retailer page on the Your Choice website](#).

For information on possible impacts of easements, visit the [Caveats, covenants and easements page of the Department of Transport, Planning and Local Infrastructure website](#).

For information on the National Broadband Network (NBN) visit the [NBN Co website](#).

Buyers' rights

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.
