

Zodiac Ei Xpert

saltwater chlorinator

Robust and durable, **Zodiac's Ei Xpert** is designed to perform year after year with minimal maintenance. Set up is quick and easy with product features that are simple to operate. All with a single purpose in mind, to give you more time to enjoy your pool.

Durable and easy to control, the Ei Xpert is the clear choice for anyone looking for an affordable saltwater chlorinator

Easy to Operate

Setting up a chlorinator can often be a hassle, so we made Ei Xpert as easy as possible straight out of the box. Ei Xpert comes preset with summer and winter modes, all you have to do is set the time and select the mode. Or you can override the modes and set your own operation to suit your individual needs. Also features Boost or Low functions to make ongoing use as easy as possible.

Should there be any problems, there will be warnings shown on the screen to alert you.

Easy to Maintain

The process of saltwater chlorination is a fascinating and complex subject (too complex to discuss here) but let's just say that you need some really clever and well constructed materials to make it all work, otherwise you will spend as much time maintaining the product as you will swimming.

Zodiac use nothing but the best and we incorporate reverse polarity (self cleaning) technology to keep cell cleaning to a bare minimum. Plus the clear housing makes it easy to see when it needs any attention.

Ei Xpert comes in 2 sizes, compact and mid size, use this graph to see which size you will need to suit your pool in your climate.

Specifications Chart

| Description | Ei Xpert Compact | Ei Xpert Mid Size |
|-------------------------------|-----------------------|-------------------|
| Maximum* average pool size | 40,000 litres | 70,000 litres |
